Reilly Raab

reilly@ucsc.edu | reillyraab.com | github.com/raabrp

Summary

PhD in computer science focused on multi-agent systems research, a strong mathematical background in physics, and extensive programming experience implementing highly parallel numerical simulations, novel optimization techniques, and signal processing algorithms.*

Skills

Machine Learning:	Multi-agent Systems, Reinforcement Learning, Nonstationary Environments.
Optimization:	Convex Optimization, Evolutionary Game Theory, Approximate Newton Methods.
Programming:	GNU/Linux, Python (incl. NumPy, SciPy, Jax, Taichi, Gym), C, Lisp, JavaScript, Open-Source.

Education

PhD, Computer Science and Engineering — Fall 2019 – Winter 2024*
University of California, Santa Cruz — *Santa Cruz, CA*

- ARCS Scholar • Deans's Fellow • Regents Fellow • Dissertation Year Fellow • Advancement with Honors

BSc, Physics — Fall 2011 – Spring 2015
University of California, Santa Barbara (College of Creative Studies) — *Santa Barbara, CA*

- High Honors • Distinction in the Major • Education Abroad Scholarships

Experience

Graduate Student Researcher — Sept 2019 – Present
Human-Centered Machine Learning, UC Santa Cruz — *Santa Cruz, CA*

- Described dynamics of systems of mutual learners using evolutionary game theory [3].
- Established adversarial bounds for fairness violation due to distribution shift [4].
- Discovered exact, least-squares correspondence between replicator dynamics and natural gradient descent [5].
- Adapted online reinforcement learning methods to systems of mutually interacting learners [6].
- Mapped machine learning with policy-induced distribution shift to a novel constrained optimization algorithm [7].
- Wrote multi-agent simulations in Python using JAX and Taichi for GPU acceleration.

Software Developer — Oct 2016 – Aug 2018
Breadware, Inc. — *Reno, NV*

- Wrote proprietary software to automate electronic design tasks, such as PCB layout (Python).
- Mapped abstract hardware APIs to I2C bus protocols for modular embedded devices (Python, C).
- Implemented web-based testing of user-logic for embedded devices in simulated environments (JavaScript).

Teaching Assistant and Residential Mentor — Summer 2015 | Summer 2016
The Summer Science Program — *Socorro, NM | Boulder, CO*

- Mentored and supervised advanced high school students in observational astronomy.
- Graded written and programming assignments in celestial mechanics, programming, and mathematics.
- Wrote supplementary math and programming challenges and gave supplementary lectures.

Undergraduate Research Intern — Feb 2013 – Jun 2015
California NanoSystems Institute, UC Santa Barbara — *Santa Barbara, CA*

- Helped build universal Josephson junction superconducting quantum computers for Google Quantum AI.
- Calculated effect of hardware signal-chain imperfections on quantum gate error for software correction [2].
- Wrote software to automate phase-noise characterization of GHz oscillators (Python).

Undergraduate Research Intern — Jan 2012 – Jul 2012
UC Santa Barbara Center for Energy Efficient Materials — *Santa Barbara, CA*

- Worked on organic electric device characterization to develop plastic solar cells.
- Fit spectroscopic ellipsometry measurements to models for organic electron-donor molecules [1].
- Conducted laser-induced photoluminescence decay measurements for same electron-donor molecules [1].
- Performed atomic force microscopy measurements and statistical analyses for thin-layer morphology characterization.

*Degree expected March 2024

AWARDS

Dissertation Year Fellowship (Winter)	UC Santa Cruz	2024
Dissertation Year Fellowship (Fall)	UC Santa Cruz	2023
Best Paper Runner-Up [6]	RTML[†] Workshop at ICLR[‡]	2023
Highlighted Paper [6]	RTML Workshop at ICLR	2023
ARCS Scholar	ARCS Foundation, Inc., Northern California Chapter	2022
Advancement with Honors	UC Santa Cruz	2021
Spotlight Paper [3]	NeurIPS[§]	2021
Regents Fellowship	UC Santa Cruz	2019
Dean's Fellowship	UC Santa Cruz	2019
High Honors (BSc in Physics)	UC Santa Barbara	2015
Distinction in the Major (Physics)	UC Santa Barbara	2015
Education Abroad Scholarship	UC (All Campuses)	2013
Education Abroad Scholarship	UC Santa Barbara	2013
Undergraduate Research Internship	UCSB Center for Energy Efficent Materials	2011
